ROHS compliance - EU Directive 2011/65 / EU 2015/863

Regarding the topic mentioned above, our material suppliers informed us that the material supplied by them, which is further processed by HEBOTEC GmbH into various technical products with special properties, complies with the above-mentioned directive.

In these materials, the elements lead (Pb), mercury (Hg), cadmium (Cd), chromium VI (Cr VI), polybrominated biphenyl (PBB) and polybrominated diphenyl ether (PBDE) referred to in the EU Directive 2011/65 / EU and the materials Bis (2-ethylhexyl) phthalate (DEHP), Butylbenzyl phthalate (BBP), Dibutyl phthalate (DBP), Diisobutyl phthalate (DIBP) referred to in the EU Directive 2011/65 / EU 2015/863 are not or are only dense in traces the detection limit in solid metallic solution so that they are not relevant under the objective of the EU Directive.

The extensions to the Regulations (EU) - 2017/2102 , 2018/739 Exemption 6a, 2018/740 Exemption 6b, 2018/741 Exemption 6c, 2018/742 Exemption 7a , 2018/736 Exemption 7c, 2018/737 Exemption 24 - do not apply to our products.

For articles where the material is provided by our customers, we can not provide confirmation of compliance with the EU Directive. Here, the confirmation must be made by the customer or by its suppliers. For this reason, we assume no liability for these items.

In order to ensure, in our own interest and in the interest of our customers, that we are moving within the scope of the prescribed regulation, we keep a current list of hazardous substances.

As part of our ISO 9001: 2015 certification, we are in constant dialogue with our suppliers, also to ensure that all delivered products are RoHS compliant.

For further questions - or if you need more information - we are of course happy to help.
